

The Advanced Coating Lab is located at the National Center for Aviation Training and specializes in the research, development and testing of aerospace coatings. In addition to the research and development services, the Advanced Coating Lab offers consulting in Aerospace Coating & Paint Technology through WSU Tech.

ADVANCED COATINGS LAB

New coating technologies research and development
Comprehensive evaluation of interior and exterior high performance coatings
Metal / process evaluation and optimization
Coating application process improvement
Production of military, OEM, and industrial specifications
Workforce development

TEST CHAMBERS

- Accelerated Weathering Unit
 - Xenon, QUV
 - Salt Fog Cabine
- Cyclic Corrosion Chamber EMC / S and Lang (en-US)/MCI (en-US)/MCI (en-US)/MCI (en-US)
